RESPONSE TO RESTRICTION  
REQUIREMENT

Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

In response to the Restriction Requirement, Applicants elect, with traverse, to prosecute the claims of Group I, claims 1-18, 31 and 32, drawn to an isolated nucleic acid molecule encoding an SSG polypeptide, an expression cassette, a cell comprising said expression cassette, and method of making a SSG polypeptide. Applicants' election is made with traverse as examination of the subject matter recited in the claims of Groups I-IX would not place a substantially greater burden on the Examiner.

Further, in response to the Species Election, Applicants elect the following species for purposes of examination: an isolated nucleic acid encoding an SSG polypeptide, said SSG polypeptide comprising an amino acid sequence that is at least about 70% identical to an amino acid sequence as set forth in SEQ ID NO:3. As stated in MPEP § 809.02(a), "[u]pon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or
